### TECHNICAL PROJECTS

[Finish Line](#) - [Github](#) - [Youtube](#)

**Productivity app that allows you to create projects with task and see all task on a calendar.**

- I worked with **Calender.io** to display all tasks in a weekly calendar and used **Keyframes** for animations.
- Secured my application with **JWT Login** and stored users information in my **Ruby on Rails Back-end**.
- It's an **Asynchronous** app so you don't have to refresh the page after every function is called.

[Connecting the Dots](#) - [Github Frontend](#) - [Github Backend](#) - [Youtube](#)

**Monthly Expense Report with charts and tables.**

- Utilized **React-Bootstrap-Table**, **Chart.js**, **Html**, and **CSS** to display all info in a minimalistic format.
- Used **Ruby on Rails** for my backend to create, edit, and delete tasks, expense reports, and users.
- For my frontend I used **Javascript** and **React.js** to build out functions, components and **API** calls.

[Block Buster](#) - [Github](#) - [Youtube](#)

**Recreation of the Famous Tetris Game.**

- Utilized **Ruby on Rails** and **SQL** to create and store users to then display them in our front end.
- Worked with **Javascript** to build all core functions of the game like the gravity and the switching tetriminos mid game.
- Created my own pure **CSS** and **Keyframes** to create all styling and animation.

[Mountain Man](#) - [Github](#) - [Youtube](#)

**Social Media for Hikers.**

- Utilized **Javascript** to make **API** calls to the backend and the core of our application.
- Implemented **Ruby on Rails** and **SQL** to create and store posts to then display them in our front end.
- I made use of **Bootstrap** for the styling to create something clean and smooth.

### EXPERIENCE

[Ayala Property Group](#)

**Real Estate Agent**

Houston, TX  
**09/2015 to Present**

- Managed a wide range of clientele by searching for residential properties for personal residence and investments.
- Accustomed to working in fast paced environments with the ability to think quickly and handle difficult situations.
- Cultivated an excellent rapport and trust factor with clients which facilitated long term relationships, referrals and repeat business.

[T-Mobile](#)

**Sales Rep**

Houston, TX  
**1/2019 to 1/2020**

- Establish and maintain good customer relationships with both customers and team members.
